While phasing into oscillation

And leave behind our reservations

E D C D
It s never the same and the nights always glow
A C D
There s nothing to see and nowhere to go

It s easy to say you re happier when you re disturbed
A C D
The grey lights in your head getting down the germs

I m lazy and tame and the chimes always blow

A glimmering sound on the breeze when you go

It s never a shame and I ve learned to live with the worms underground

A sliver of a conversation
