

**Royal Mile Sweet Darlin**  
**Gerry Rafferty**

Royal Mile (Sweet Darlin ) â€" Gerry Rafferty  
Submitted by John Daly

**Am**                    **G**                    **Am**  
I remember the sound of the passing train  
**Am**                                    **G**                                    **Am**  
As it rolled through the night in the pouring rain  
**Am**                                    **G**                    **Em**                                    **C**  
And the touch of a hand and the way she said Goodbye .

**Am**                                    **G**                                    **Am**  
And we walked in the sun down the royal mile  
**Am**                                    **G**                                    **Am**  
Saw the light in her eye and the way she smiled  
**Am**                                    **G**                                    **Em**                                    **C**  
And she cried in the night and I heard her say Don t go .

**F**                                    **G**                                    **C**  
What can I do, sweet darlin , I don t want to go away  
**F**                                    **G**                                    **C**  
Looking at you sweet darlin , I know I want to stay  
**F**                                    **G**  
What can I do, sweet darlin ?

**Am**                                    **G**                                    **Am**  
In the light of the day I was rolling home  
**Am**                                    **G**                                    **Am**  
I was thinking of you waiting on your own  
**Am**                                    **G**                                    **Em**                                    **C**  
And I wanted to call but then something said Oh no .

**Am**                                    **G**                                    **Am**  
Yeah but now it s a dream, it s a memory  
**Am**                                    **G**                                    **Am**  
But I ll never forget what you gave to me  
**Am**                                    **G**                                    **Em**                                    **C**  
I was lost and alone but you made feel ok.

**F**                                    **G**                                    **C**  
What can I do, sweet darlin , I don t want to go away  
**F**                                    **G**                                    **C**  
Looking at you sweet darlin , I know I want to stay  
**F**                                    **G**  
What can I do, sweet darlin ?

**Am**                    **G**                    **Am**

Am G Am  
Am G Em C  
G Am

I remember the sound of the passing train

Am G Am  
As it rolled through the night in the pouring rain

Am G Em C  
And the touch of a hand and the way she said Goodbye .

F G C  
What can I do, sweet darlin , I don t want to go away

F G C  
Looking at you sweet darlin , I know I want to stay

G  
What can I do, sweet darlin ?

Am G Am  
Am G Am  
Am G Em C

Repeat & Fade

Cool song, hope you enjoy it.
