

Stumbling In Your Footsteps  
Get Scared

**Am**  
What went wrong?

**F** **E**  
We both know that you re not here

**Am** **F** **E**  
This is where you haunt and it s kept me in fear for far too long

**F** **G**  
Now you hide like the ghost

**G**  
The ghost we both know

**Am**  
I m the taste on your tongue

**Em**  
The taste you can t spit out

**F** **G**  
Please come home again

**Am** **Em**  
Let me show you we re good enough for your love

**F**  
What have you done?

**Am**  
When is it ever enough?

**C**  
To be seen in my eyes

**F**  
Tell me the truth

**Am**  
What did you have left to lose?

**C** **F** **E**  
To be seen in my eyes as a fool down on his knees

**F** **E**  
When the kingdom has lost its king

Who s left to lead?

**Am** **F** **E**  
Torn apart and left here to rot away (rot away), rot away

**Am**  
I m making sense while you save yourself

**F** **E**  
Saving me is all that can help

**F** **G**  
Now you hide like the ghost
