

**Blackest Bile**  
**Giles Corey**

The other tab on this site has some pretty crazy fingerings for a song that s actually quite simple. The Dan Barrett has a limited musical background, after all.

Capo 6  
Standard tuning

Intro: **D A7 G Em A5**

**D**  
all around me  
**A7**  
in the air hangs a wreath  
**G**  
of blackest bile, and smoke  
**Em A5**  
that I can see

**D**  
I open up my heart  
**A7**  
and let it all in  
**G**  
and it kills all my love  
**Em A5**  
and hope for everyone

[I m not so sure about the second part because there are multiple tracks being played over each other]

**Em G**  
and it hasn t been easy on you,  
**Em G**  
I know that more than most.  
**Em G**  
I am born to be alone,  
**Em G**  
I am just some lonely ghost

[Don t forget to stomp your foot]

**D**  
all around us  
**A7**  
hangs an air of darkest doom,  
**G**  
and it flows out my lungs

**Em** **A5**  
and slowly fills the room

**D**  
I open up my heart

**A7**  
and stick my fingers in,

**G**  
but you will never want

**Em** **A5**  
what I have to give

Last verse is exactly the same as the third verse for the first half of the song.
