Hi! This is my first time to ever tab a song and I would really, really appreciate it if you rate my work.
However, I m 99.9% sure of my tabs and I m currently working on the whole song trying to find the accurate chords. I already found the chords for each verse, but the chorus part is a little complicated than what it seems.
Here are the chords for each verse. (G, Em, Bm7 and D...)

This is a cool song! If you have any comments or suggestions, you can E-mail me at *. Thanks very much!!!
