Am
when you look at me
C
Tell me what you see
Am
Do you see no love at all
C
Or do you see in me
Am
What you always see
C **Em**
In every girl that you fall for
E **C** **Am**
I will show you how love is meant to be
C **E** **Am** **C**
Just watch and learn and listen to me

E **C**
Will you ever see the day
E **C**
Heartache leads astray
E **C** **Am**
Good love will always come from me
E **C**
Will you ever learn to love
E **C**
Without a little doubt
E **C** **Am**
Good love will always come from me

Am
When you look away
C
Is it meant to say
Am
That she haunts you night and day
C
And does it hurt your heart
Am
When I say Lets start
C **Em**
To heal the part thats been torn
E **C** **Am**
