

Honey Bunny Girls

Chords transcribed by: Chris Winfield

Email: cwnfield AT vt DAWT edu

Date: 8/19/11 (Yes, it s over a month before the release of the album, I m an officer in college radio so we get promos early. I loved this song on first listen and did this out.)

Tuning: Standard

Capo 4

Girls does a lot of stuff on capo 4, but I think they keep a second guitar that is providing some bassier stuff. This is for the main rhythm guitar you hear throughout most of the song.

Intro: **C**

Verse: **C F G**

For the verse, there s some movement back and forth between the F chord there and an E.

If you want to the play the riff right, bar the F and slide your middle, ring and pinky fingers back and forth.

Pre-chorus: **Am**

Chorus: **C**

My best guess at the guitar fill so far is

A-3-2-----|
E-----3-1-|

Bridge: **C F Am G**, second time has a different rhythm but the same chords.

Ending: **C**

It s pretty simple to play along too except the weird verse that is best done without a capo (with bar chords you can play without). In all likelihood, there s two guitars or multiple tracks here, one with capo and one without. Listen to the song, the two voices are present.
