

Agnes

Glass Animals

**E**

agnes, just stop and think a minute  
why don t you light that cigarette and

**A**

calm down now, stop and breathe a second  
go back to the very beginning

**E**

can t you see what was different then  
you were just popping percocet

**A**

maybe just four a week at best  
maybe a smoke to clear the head

*Pre-Chorus 1*

**E**

your head is so numb  
that nervous breath you try to hide

**A**

between the motions  
that trembling tender little sigh

**E**

and so it goes  
a choking rose back

**A**

to be reborn  
i want to hold you like you re mine

**E**

**A**

**E**

**C#m**

*verse 2*

**E**

you see the sad in everything, a  
genius of love and loneliness and

**A**

this time you overdid the liquor  
this time you pulled the fuckin trigger

**E**

these days you re rolling all the time  
so low so you keep getting high

**A**

where went that cheeky friend of mine  
where went that billion dollar smile

*Pre-Chorus*

**E**

guess life is long  
when soaked in sadness

**A**

on borrowed time  
from mr madness

**E**

and so it goes  
a choking rose back

**A**

to be reborn  
i want to hold you like you re mine

**E**

you re gone but you re on my mind

**A**

i m lost but i don t know why

**C#m**

you re gone but you re on my mind

**B**

i m lost but i don t know why
