Capo on 2

[Verse]

**Em**                      **G**  
Face to face and heart to heart  
**D**                              **C**  
We're so close yet so far apart  
**Em**                      **G**  
I close my eyes I look away  
**D**                              **C**  
That's just because I'm not okay  
**Em**                      **G**  
But I hold on I stay strong  
**D**                              **C**                      **D**  
Wondering if we still belong

[Chorus]

**G**    **Am**  
Will we ever say the words we're feeling  
**Em**  
Deep down underneath it  
**D**  
Tear down all the walls  
**G**    **Am**  
Will we ever have a happy ending  
**Em**    **D**  
Or will we forever only be pretending  
**G**                      **Am**                      **Em**                      **D**                      **C**  
Will we a-a-a-always a-a-a-always a-a-a-always be pretending

[Verse]

**Em**                      **G**  
How long do I fantasise  
**D**                              **C**  
Make believe that it's still alive  
**Em**                      **G**  
Imagine that I am good enough  
**D**                              **C**  
If we can choose the ones we love  
**Em**                      **G**  
But I hold on I stay strong
