Capo II

G D

I ve seen the dark spot on your soul **G**
I ve had you cruel, I ve felt you cold **Em**
I know the parts of you that you don t think you show **C D**
But I still love you **G D**

I ve seen you looking at yourself **G**
And wishing you were someone else **Em**
Wondering if I might go and leave you all alone **C D**
But I still love you **G G**

You shake me **C Cm**
and leave no room to hide **G Em**
You saved me **C D**
You didn t have to **C**
How I love You **D**

You know how selfish I can be
You ve seen my pettiness and greed
But I would give you anything
For you to love me

You saw me curled up and crying
You saw me hopeless and blind
Well I was weak and wretched then
But still you took me in

You make me
Turn towards the light
You saved me
You didn't have to
But I thank God

G

I've seen the worst of you it's true

Em

But it's the smallest part of you

C

Yeah, it's the smallest part of you

D

G

And I still love you, I do

C

Yeah, it's the smallest part of you

D
