

And increasingly you do

F

You never used to be this way

Dm (**Dm, G**)

So how does ??? get to you

third verse + chorus = same chords as first

Never going to know what it is all about

Till you stop trusting me

Take this as a friendly shot across your bows

As you can't talk to me

You are obviously fraught

I've said all that I can say

Now the ball is in your court

Whacky bacco walk away

We could slowly drift apart

Intrigue only lasts so long

Its up to you to make a start

You're untouchable you're untouchable

Heaven knows you've got to open up somehow

I can take it on the chin
