gnash

[Intro]

A **C#m** **F#m**
Woah, nobody s home, I m all alone
D **A**
Guess I ll just sit here and stare at my phone
C#m **F#m**
When I m all alone, you don t even know
D **A**
How bad I d love to be alone with you

[Verse 1]

C#m
And I could go, put on a hoodie and sweats
F#m **D**
And then take a walk to coffee, and get back into bed
A **C#m**
But my bed and my head and the heart that you wrecked
F#m **D**
In my chest are a mess since the second you left
A **C#m**
And I m lying awake and impatiently pacing
F#m **D**
The hallways and taking the pictures from frames
A **C#m**
And arrangements of daisies in vases you made
F#m **D** **E**
Are all dead and alone, like I am but I hope that

[Pre-Chorus]

E7
Maybe I ll forget you someday
But today is just another Monday

[Chorus]

A **C#m** **F#m**
So, nobody s home, I m all alone
D **A**
Guess it s just whiskey, weed, me and my phone
C#m **F#m**
I m on my own, I didn t know
D
I don t like this feeling at
A **C#m** **F#m** **D**

All that I know is I m lonely here in my room (in my room, yeah)

F#m **C#m**
I know that I got a couple of voids I could fill

But if I can avoid them now, lord knows, I will

Maybe I ll forget you someday

Hey, baby, maybe one day

Or maybe after Sunday
