

Collide

Go Radio

First Tab, Thanks to my friend Moises for helping with it... I m Open To Any Comments!

C
You came for every single second I had
Am
The way I loved you from just under my breath
F
Was a constant reminder that what beat in my chest
G
Wasn't mine anymore I'd guessed
C
You swore the sun you'd never do this again
Am
Let down your guard and leave here more than a friend
F
There was a fire there could be one again
G
Where's the map telling me to begin
Am F C
Cause I won't let you burn out tonight
C
And you be the reason
Am
I'll be the rhyme
F
We've both got way too much ahead
G
To worry about what we've left behind
C
So you keep the beat
Am
We'll stay on time
F G
And fill the pages with just how both our worlds collide
When I'm left in your eyes
C
You needed something you could hold with your hands
Am
Something rebellious that you don't understand
F
Something that you were sure we'd never remand
G
Won't you please clue me in on the plan

Am F C
Cause I won t let you burn out tonight

Am F C
Let s just stay here. Don t breathe. Ignite
