```
          G                      Am
I saw the waves all storm the beach
            Bm
And you were there with your arms outreached
              G                Am                   Bm
Saying take me away to a better place              oooahh

       G                        Am
Coz I do what I could and thereâ€™s nothing left
       Bm
And I canâ€™t find the air that I need for a breath
         G                Am
If this castles all fall and collapse to my chest
           Bm
Iâ€™m not sure I ll get back up

     G
So tonight I try to fight
       Am
The waves in all our lives
                   Bm
Iâ€™m finding what I donâ€™t know
                  C
Could fill up every black whole
     G
And tonight if nothingâ€™s left
       Am
And we fall to our last breath
                      Bm
Keep your head above the water
             C
Weâ€™ll take it all together
```

If thatâ€™s tonight!

Intro: **G-Am-Bm-C**

```
          G                   Am
I heard the crowds all rush and greet
      Bm
Another time and another me
                 G                  Am            Bm
```

I swear this was the way that it had to be   oooahh

          G   Am
Coz the rain's gonna fall till us all soaked clean
          Bm
And the wind's gonna blow till it comforts me
          G   Am
And we all have to fall just to stand so it seems
            Bm
This is how we get back up

      G
So tonight I try to fight
        Am
The waves in all our lives
                            Bm
While I'm finding what I don't know
                      C
Could fill up every black whole
        G
And tonight if nothing's left
          Am
And we fall to our last breath
                            Bm
Keep your head above the water
                  C
We'll take it all together
                  G   Am
If that's tonight
                Bm   C
If that's tonight

        G
Coz I do what I could and there's nothing left
          Am
And I can't find the air that I need for a breath
          Bm
If this castle all fall and collapse to my chest
        C
I'm not sure if I can get back up
                    G-Am-Bm-C
If that's tonight

                  G   Am
If that's tonight
                Bm   C
If that's tonight

Adlib: G-Am-Bm-C

            G
Oh If that's tonight
