I could be really off, but this sounds very decent on an acoustic guitar to me. Throw a Capo on one and play these chords relevant to capo. The F#m might be difficult if you've never played it this way before.

Intro: **A, E, B, B** x2

Verse:

```

                A
And I m tearing down the walls I ve made
                E                B
To try and keep girls like you away
                A                                E        B
But still you ll find your way right back into my heart
                A
And am I m the only one like this
                E                B
That s finding it hard to be missed
                F#m
I ve been waiting here for just one kiss
                E        B
From someone else s lips
```

Chorus:

```

    A        E        B
And I ll be just fine
If you just stay here for a while
    A        E        B
And I ll be okay
If you just stay with me x2
```

Verse:

```

                A
And I m staying up all night again
                E                B
Writing songs about where and when
    A                                E        B
I could hold you til you rest your head to sleep
                A
This is the part where I should act my age
```

E B
Go get a job and let s all get paid
F#m
We ll live it up til the end of days
E B F#m
You and me, wait and see, honestly
A
Please promise me

Chorus:

A E B
And I ll be just fine
If you just stay here for a while
A E B
And I ll be okay
If you just stay with me x2

Bridge:

A *ring*
Stay with me
A B C#m E
Stay With Me
A B C#m E
Stay With Me
A B
And all I wanted was a happy ending
C#m E
A better life just stay with me
A B C#m E
Stay With Me

Chorus:

A E B
And I ll be just fine
If you just stay here for a while
A E B
And I ll be okay
If you just stay with me
keep repeating
