

My Companjera
Gogol Bordello

In essence not such a difficult song, but listen to the record to get the guitar rhythm

and timing right. I made this partly by watching/listening a live radio performance

(<http://www.youtube.com/watch?v=qbdxI10h7kM>) which is guitar and voice only, making it

easier to figure out but also making it a little different. This version might also

help: <http://www.youtube.com/watch?v=jADQ91fKRPQ&NR=1>

Its gypsy punk so he plays whatever he thinks fits in, like changing (low) E and

(higher) E7. I found it quite useful when trying to get this song down. Listen to the

song for

the changes and everything, hope it helps!
