

Its Not Over Yet
Goldfrapp

A F#m C#m

I ll live for you, I d die for you, do what you want me to
I ll cry for you, my tears will show that I can t let you go
Don t let me down, don t make a sound, don t throw it all away
Remember me so tenderly, don t let it slip away
It s not over, not over, not over, not over yet
You still want me, don t you
It s not over, not over, not over yet
Cause I can see through you
I ll live for you, I d die for you, do what you want me to
