

**It's Not Over Yet**  
**Goldfrapp**

**A F#m C#m**

I ll live for you, I d die for you, do what you want me to  
I ll cry for you, my tears will show that I can t let you go  
Don t let me down, don t make a sound, don t throw it all away  
Remember me so tenderly, don t let it slip away  
It s not over, not over, not over, not over yet  
You still want me, don t you  
It s not over, not over, not over yet  
Cause I can see through you  
I ll live for you, I d die for you, do what you want me to
