### Gomez

The song is in Gm, but those chords are a bit hard, so I put the capo on 3.  
There are parts I could not quite get, so your corrections are appreciated.

The formatting was kicking my ass. Hopefully you can figure out when to change chords--I couldn't get them over the correct words.

(intro and start of verse 1) Em  
I could be the guy at the end of the street  
high on caffeine

**G**

Ranting and raving, baby

**C**

And that's OK

**Am Am7 Em**

At least I've got options

Or I could be the one who gives it all up  
and moves back to the parents' house

**G**

Live in the basement baby

**C**

And that's OK

**Am Am7 Em**

At least I've got options

Chorus:

**G-D-C**

All the things you'll see

**G-D-C**

And the places you'll go

**G-D-C**

All the people you need

Everybody wants you

F# (4th fret)

Wants to be you

(same as verse 1)

I could settle down be responsible

Be a good man

And learn how to fix things, baby

And that's OK

At least I've got options

Or I could try and learn what I unlearned

Moving to business  
And make loads of money for gullible people  
That s OK  
At least Ive got options

Chorus

Bridge:

(**Em** **G** **C** for each line)

I never wanted to change you

I only wanted to share

I dont believe,

I dont believe

Starting over and over again,

Over and over again

Somebody who understands and loves me  
Despite all my weakness baby  
And thats OK  
At least I ve got options

All the things youll see  
(All the things that you wanted see)  
And the places youll go  
(All the places that you wanted to go)  
All the people you need  
(All the people you wanted to need)  
And the lovers youve known  
All the lovers that you wanted to know  
Everybody wants you  
Wants to be you
