

Wywh
Goody Grace

[Chorus]

You know my bones, I know your scars
I know you don't like to go far
And you know I can't stay in one place for too long
Another plane, another sea
I'm so lost, it's plain to see

Ala Always wondering where you could be

[Verse 1]

These Paris lights keep spelling your name
Reminding me I wish you were here
And I'm terrified of yelling your name
Cause now-a-days it's all that I hear
I saw the Eiffel Tower from the window of the plane
At the 19th hour of a late August evening
And I thought to myself where could you now be

[Chorus]

You know my bones, I know your scars
I know you don't like to go far
And you know I can't stay in one place for too long
Another plane, another sea
I'm so lost, it's plain to see

Ala Always wondering where you could be
