

Can We Work It Out
Gordi

[Intro]

G C F

[Verse 1]

G C F
I m tired of just hiding away

G C F
Wrestling my instincts to keep it at bay

G C
Cause forgetting you is like ignoring the weather
F

Or wanting you takes as long as forever

G C F
And I don t know how much longer I can keep it inside

[Chorus]

C F G
Can we work it out?

C F G
Can we work it out?

C F
Cause every fiber of my being s agreed

G Am
That what you want can become something you need

F G
Can we work it out?

G C F
Go on and get out of my head

[Verse 2]

G C F
Or stay, tell me something instead

G C
Tell me how we work this out

F
And what the struggle s about

G
You re asking me to give you all I have

C F
Tell me how to change your mind

[Chorus]

C F G
Can we work it out?

C F G
Can we work it out?

C F
Cause every fiber of my being s agreed

G Am
That what you want can become something you need

F G
Can we work it out?

[Verse 3]

G C F
Won t you just open your eyes?

G C F
And see that we are failing at our clever disguise

G C
Can you pick a point that we can choose to rewind to

F
Or know there s better days ahead than behind you

G C F
Cause I can t see anything ahead of me now

[Chorus]

C F G
Can we work it out?

C F G
Can we work it out?

C F
Cause every fiber of my being s agreed

G Am
That what you want can become something you need

F G
Can we work it out?
