

All The Lovers In The World

Gowan

ALL THE LOVERS IN THE WORLD BY GOWAN

NOTE: This is actually a fairly simple song , the E chord is simply repeated at the beginning , all in the rythm of your strum by lifting your finger off the A string every third strum or so. Maybe not correct but that seems to work for me on a 12 string. Any suggestions please pass them to me at onlyforbrian2@gmail.com Cheers...Enjoy!

**Em**  
 Virgin hands,  
**Em**  
 Need excited,  
**Em**  
 A fire so hot,  
**Em**  
 Two lives were ignited,  
**Em**                      **D**     **D**     **Em**                      **Em D D Em**  
 Now I m left here on my own,  
**Em**                      **D**     **D**     **Em**                      **Em D D Em**  
 But I ll never be alone,

CHORUS:

**Em**    **C**  
 Down forbidden streets I talk with  
**D**  
 Every single step I walk with,  
**Em**    **C**    **D**  
 All the lovers in the world,  
**Em**    **C**  
 Though the lonely night s returning,
