

All Over You

Grace Potter and the Nocturnals

It s originally in the key of F, but I brought it down to D to sing it easier.

Intro

Bm **D**

Bm **D**
See your face on the street

Bm **D**
Lay my head on empty sheets

G **A**
If only I could tell you how hard

G **A**
It is to keep a hold of my heart

I watch the rain coming down
Making love to the ground
If only I could be like the rain
I d cover you again and again

G **D** **Em** **Bm**
I keep on telling myself I m not falling all over, all over

G **D** **Em** **F#** **Bm** **D**
But my love is water, and I wanna rain all over, all over you

Your so cruel, when you smile
You keep me waiting all the while
If only you d stop leading me on
Then you d see that it s been raining all along

G **D**
Stop kicking me around

Em
Stop messing with my heart

Bm
Stop running from the lightning, and the thunder, and the dark

G **D**
Take a minute baby, I m tryna tell you something

Em **F#**
Stop and listen to the sound of your heartbeat

Bm (add some whammy bar for flavor...haha)
Can you hear it?
(just walk up here)
Whoa, whoa, whoa

I keep on telling myself, I m not falling all over, all over
But my love is water, and I wanna rain all over, all over

I creep, i quiver, I cry, I shiver all over, all over
And if love is water, then babe, I m gonna rain all over you
All over you
