Talk Good
Grace VanderWaal

[Intro]
Am   G   Em   F

[Verse 1]
Am   G   Em   F
It sounded so much better in my mind, mind mind
Am   G   Em   F
I guess I messed it up again this time, time, time
Am   G   Em   F
There s something else that I wanted to say, say
Am   G   Em   F
But my twisted tongue got in the way, way, way

[Pre-Chorus]
Am   G
Ooh
Em   F
My mouth is moving without thinking
Am   G
Ooh
Em   F
My brain and mouth on different systems
Am   G   Em   F
Why can t you see my side of things
Am   G   Em   F
I ve been thinking bout it ever since

[Chorus]
                F   F
I wish I said this, I wish I said that
         F   G
But I kinda froze in my tracks

F   F
I wish I said this, I wish I said that
Am   G
But I kinda had a panic attack

F   Am   G
I wish I could talk good
F
I wish I could talk, I wish I could talk
              Am   G
I wish I could talk good

[Verse 2]
```
Am          G                 Em        F
Rerun the conversation in my head, head (head)
Am                  G              Em              F
Think of all the things that I should ve said instead
```

[pre-Chorus]
```
Am   G
Ooh
Em                       F
My mouth is moving without thinking
Am     G
Ooh
Em                       F
My brain and mouth on different systems
            Am         Em        F
Why can t you see my side of things
Am         G                   Em        F
I ve been thinking  bout it ever since
```

[Chorus]
```
            F                        F
I wish I said this, I wish I said that
        F                   G
But I kinda froze in my tracks

              F                      F
I wish I said this, I wish I said that
            Am                  G
But I kinda had a panic attack

                  F        Am   G
I wish I could talk good
                    F
I wish I could talk, I wish I could talk
              Am     G
I wish I could talk good
                  F          Am   G
I wish I could talk good
                  F
I wish I could talk, I wish I could talk
                  Am       G
I wish I could talk good
```

[Bridge]
```
F                   Am
My words, my mind
      Em           F
They re worth all your time
F                   Am
```

My words, my mind
      Em   F
They re worth all your time
      Am   G   Em   F
I don t wanna be a puppet game and caught on your line
         Am   G
I come back to these words every time

[Chorus]
F   F
I wish I said this, I wish I said that
    F   G
But I kinda had a panic attack
              F   F
I wish I said this, I wish I said that
        Am   G
But I kinda froze in my tracks

F
I wish it went the way it went in my head
        Am
But it kinda crushed and burned instead
F
Why does it always end up like this and I
G   F   Am   G
So badly wish I could talk good   (wish you said this, whish you said that)

[Outro]
                   F
I wish I could talk, I wish I could talk
                 Am   G
I wish I could talk good
                 F   Am   G
I wish I could talk good   (wish you said this, whish you said that)
                 F
I wish I could talk, I wish I could talk
                 Am   G   Am
I wish I could talk good   (gooood)
