

Love Comes Back Around
Graham Colton

Hey everyone! This song by Graham Colton is very relaxing to me and makes me feel so when i listen to the words with rhythm of the guitar. I like to hear it as though Im God loves forever and it always comes back around. Its def a cheerer-upper! Enjoy!

Capa 4
C-(x32010)
F-(x33210)
G-(320010)
A-(x02210)

C **F** **G** **C**
Some say that life, you can t rewind
Even when time is on your side
Some say that pain, it makes you strong
And you find the strength to carry on

Chorus:

F **C** **G** **A**
Some say what s lost is never found
F **C** **G** **C**
But I know your love comes back around

Some say that tears are meant to fall
What good is crying after all?
There are mistakes you can t undo
Then they bring out the best in you

Some say what s lost will soon be found
But I know your love is all around

la da da da la da da da
la da da da la da da da (X2)

Some say what s lost is never found
But I know your love comes back around
Sometimes your feet can leave the ground
But always it s love that holds you down

Some say what s lost will soon be found
I know your love comes back around
I know your love is all around
Always your love comes back around

And there you go!! listen to the song to get the rhythm. I hope you like it all!

God Bless.
