Start Somewhere
Graham Colton

Tabbed by: refresh375
Tuning: Standard

```
D               D/F#        G
Lets waste time falling in love
    D         D/F#        G
And take everything as it comes
D         D/F#        G
If I could rush you away
D             D/F#        G
Lets find our own secret place
```

```
Em
I don t want to wait
  D                       G
I know it wouldn t take too long
```

```
   Asus              A
So all that I need is you next to me
    D                 G
We don t have to leave to go there
Asus              A              D            D/F#   G
We ll find a way as long as we start somewhere
```

```
D       D/F#        G
If I said I ve got a plan
    D         D/F#     G
And all I need is your hand
D             D/F#      G
We could leave this busy life
    D         D/F#      G
And take everything in stride
```

```
Em
I don t want to wait
  D                       G
I know it wouldn t take too long
```

```
   Asus              A
So all that I need is you next to me
  D                   G
We don t have to leave to go there
Asus              A              D            D/F#  G
We ll find a way as long as we start somewhere
```

```
          D                 D/F#      G
If we start somewhere

Em
I don t want to wait
   D                          G
I know it wouldn t take too long
Em
Wherever it may lead
      D                  G
We’ll never have to be alone

Asus                A
All that I need if you next to me,
   D                   G
We don t have to leave to go there
Asus                A
If we get lost the bridges we cross
   D                    G
Are broken and lead to nowhere

   Asus                    A
So all that I need is you next to me
   D                       G
We don t have to leave to go there
Asus                  A                D                  D/F#  G
We ll find a way as long as we start somewhere
            D                D/F#      G
If we start somewhere

D                D/F#        G
Lets waste time falling in love
```
