

When your friends have forgotten your face?

**G7**        **C**                                **E7/G#**  
If you heard that your life had been valued  
      **Am**                                **F**  
That a price had been paid on the nail  
      **Bdim7**                                **C#dim7**  
Would you ask what was traded,  
      **F/C**  
How much and who paid it  
  **G**  
Who was He and what was His name?

**G7**        **C**                                **E7/G#**  
If you heard that His name was called Jesus  
      **Am**                                **F**  
Would you say that the price was too dear?  
      **Bdim7**                                **C#dim7**  
Held to the cross not by nails but by love  
      **F/C**                                **G**  
It was you broke His heart, not the spear!  
      **G#dim7**                                **Am**  
Would you say you are worth what it cost Him?  
      **F**                                **G**  
You say no , but the price stays the same.  
      **F**                                **Fmaj7**  
If it don t make you cry, laugh it off, pass Him by,  
      **F6**                                **Fmaj7**  
But just remember the day when you throw it away  
      **F**                                **G**                                **C**  
That He paid what He thought you were worth.

**Em**        **F**        **C**

**F**                                **C**                                **Am**  
How much do you think He is worth, boy?  
      **Dm**                                **G**  
Will anyone stand up and say?  
  **F**                                **G**                                **C**                                **Am**  
Tell me, what are you willing to give Him  
      **F**                                **G**  
In return for the price that He paid?

**F** **G** **C** **Am** **F** **G** **C**
