

You Cant Be Too Strong
Graham Parker

[Intro]

E A B E A B E

[Verse]

Did they tear it out, with talons of steel
And give you a shot, so that you wouldn t feel
And wash it away, as if it wasn t real

It s just a mistake, I won t have to face
Don t give it a name, don t give it a place
Don t give it a chance, it s lucky in a way

It must have felt strange, to find me inside you
I hadn t intended to stay
If you want to keep it right, put it to sleep at night
Squeeze it until it could say

[Chorus]

You can t be too strong
You can t be too strong
You can t be too strong

You can t be too strong
You decide what s wrong

[Verse]

Well I ain t gonna cry, I m gonna rejoice
And shout myself dry, and go see the boys
They ll laugh when I say, I left it overseas

E **B** **C#m**
Yeah babe I know that it gets dark, down by Luna Park

G#m **A**
But everybody else, is squeezing out a spark

B **E**
That happened in the heat, somewhere in the dark, in the dark

A **B**
The doctor gets nervous, completing the service

E **A**
He s all rubber gloves and no head

B
He fumbles the light switch, it s just another minor hitch

C#m **A** **B**
Wishes to God he was dead

[Chorus]

C#m A B
But you can t be too strong

C#m A B
You can t be too strong

C#m A B E
You can t be too strong

[Bridge]

A **E** **B** **E**
Can t be too strong, you decide what s wrong

A **E** **B** **E**
Can t be too hard, too tough, too rough, too right, too wrong

A **E** **B** **E**
And you, can t be too strong

A **E** **B**
Baby you can t be too strong...

Repeat intro (I think).
