This is my first Tab so if I ve messed anything up I m sorry. Just worked this out by ear and also the lyrics by ear so there may be a few mistakes in them but the chords should be good.

Tuning:E standard

Intro: **G Em** x2

Verse:

**G Em G Em**  
I was chasing that butterfly, chasing it fluttered by  
**C D G**  
Then I fell asleep under a tree

Repeat this chord pattern

Chorus:

**D Dmaj7 G A**  
**D Dmaj7 G A**  
It carried me two and thro, it seemed to know just where to go  
**D Dmaj7 G A**  
It seemed to know just where to go  
**D Dmaj7 G A**  
It seemed to know just where, where to go

Pre-Verse: **D C**

The Chords for the verse and chorus are the same for the rest of the song

The song end on **G**, but between the 4 ending **G** chords the **E,B** and **G** strings of the **G** chord are played
