

I See You

Grayson Capps

**G** **D** **Em**  
The sun slithered down behind the sycamore tree  
**C** **G** **D**  
The wind rolled in to cool me by the breeze  
**G** **Bm** **Em**  
It s been too hot mama you know it s been too warm  
**C** **D** **G/D**  
It ll be alright when the summer is gone

**G** **D** **Em**  
Fish ain t been biting but my hook is wet  
**C** **G** **D**  
Ain t seen no rain since the day I left  
**G** **Bm** **Em**  
Take a drink of water when your throat is dry  
**C** **D** **G/D**  
I m gonna sit on the dam all through the night

**G** **D** **Em**  
Hear the bullfrogs croaking all around the pond  
**C** **G** **D**  
Sounds just like a concert down in New Orleans  
**G** **Bm** **Em**  
Streams through the forest just like the blood in my arms  
**C** **D** **G** **D**  
And I see you in everything, I do

**G** **D** **Em**  
But I love you now just like I loved you then  
**C** **G** **D**  
I m getting a lil too old to try and pretend  
**G** **Bm** **Em**  
There will be another to compare with you  
**C** **D** **G/D**  
Cause I see you in everything

**G** **D** **Em**  
So I pack my bags I hit the road  
**C** **G** **D**  
I own a stretch of land got me a fishin hole  
**G** **Bm** **Em**  
Gonna sit right here until I clear my head  
**C** **D** **G** **D**  
Cause I see you in everything, I do

**G** **D** **Em**  
But there are no answers it s just a road you re on

**C** **G** **D**  
If you don't open up your eyes soon it will all be gone

**G** **Bm** **Em**  
Breeze through the forest just like the breath in my lungs

**C** **D** **G**  
Now I see you in everything
