

Long Lost Love
Great Big Sea

G
I d walk a thousand miles for you honey
G **Am-D**
I d walk a thousand miles in the sun
C
I d give up both my eyes if I could
G
Make you realize
D **G**
So why can t you see that I m the one

G
Wish I could buy a limosine

I d fill it up and pick you up and
Am **D**
Drive you to your dreams
C
But when you get out on the highway
G **Em**
Life is seldom as it seems
D
And if the car broke down
G
You d start blaming me

CHORUS

C **Em**
Moonshine bleeds into the dawn
C **G**
Who am I to say for you what s right
D
And what is wrong
C **D**
When your gone gone gone
Em
The world will carry on
C **D**
You re like a song song song
Em
Who s melody is wrong
C **D** **G** **Em** **C**
But its so so hard to say so long to you
Am **D** **G**
My long lost love

REPEAT THE OTHER CHORDS

Many a man has sold his soul for silver
Silver ain't worth nothing next to gold
Some believe that diamonds shine forever

Am

D

But they offer little comfort when you're old

Can't take it with you when you're gone
It's the same end for the weak as for the strong
And if beauty is skin deep
Then why don't it come more cheap
And why can't you and I just get along

Chorus X2
