

Long Lost Love  
Great Big Sea

**G#**

I d walk a thousand miles for you honey

I d walk a thousand miles in the sun

**C#**

I d give up both my eyes if I could

**G#**

Make you realize

**Eb** **G#**

So why can t you see that I m the one

**G#**

Wish I could buy a limosine

I d fill it up and pick you up and

**Bbm** **Eb**

Drive you to your dreams

**C#**

But when you get out on the highway

**G#** **Fm**

Life is seldom as it seems

**Eb**

And if the car broke down

**G#**

You d start blaming me

CHORUS

**C#** **Fm**

Moonshine bleeds into the dawn

**C#** **G#**

Who am I to say for you what s right

**Eb**

And what is wrong

**C#** **Eb**

When your gone gone gone

**Fm**

The world will carry on

**C#** **Eb**

You re like a song song song

**Fm**

Who s melody is wrong

**C#** **Eb** **G#** **Fm** **C#**

But its so so hard to say so long to you

**Bbm** **Eb** **G#**

My long lost love

REPEAT THE OTHER CHORDS

Many a man has sold his soul for silver  
Silver ain t worth nothing next to gold  
Some believe that diamonds shine forever

**Bbm**

**Eb**

But they offer little comfort when you re old

Can t take it with you when you re gone  
Its the same end for the weak as for the strong  
And if beauty is skin deep  
Then why don t it come more cheap  
And why can t you and I just get along

Chorus X2
