

I Could Be Nothing
Great Lake Swimmers

I could be nothing - Great Lake Swimmers

Tabbed by:Puppet Spider

Tuning: Normal tuning

This is great simple song that proves what you can do with three chords if you are truly gifted! I worked it out by just strumming along and I m sure this is spot on for the chords. Sorry I m not up to working out the full picking tab... simple chords ony from me!

Gm 355333

Dm 557765

A 577655

Gm **Dm**
Goes on forever along the shoreline

A **Dm**
Never will end on the shores of my mind

Gm **Dm**
Travel along til the sleep takes me in

A **Dm**
Where have I ended where do I begin

Gm **Dm**
Sand blankets are littered with stones whipped across

A **Dm**
Dead things in the water forgotten or lost

Gm **Dm**
Branches have surfaces and now they are lean

A **Dm**
Trees have washed up here stripped bare and washed clean

Gm **Dm**

The waves kiss and gently caress on the shore

A **Dm**
Kissing and winking and calling for more

G **Dm**
The waves like wagging tongues do adore

A **Dm**
And whisper the softly to the sand on the shore

Gm **Dm** **A**
You would be nothing without me

A **Dm**
I could be nothing

Dm **Gm** **Dm**
Said the waves to the sand

Dm **A** **Dm**
I could be nothing without you

These same chords are repeated through the rest of the song. The actual song uses a picking style and a lot of banjo, but these chords work spot on to strum your guitar and sing along around your campfire or along with the CD ;) For the rest of the lyrics buy the CD because I m not much of a typist.
