

**Moving Pictures Silent Films**  
**Great Lake Swimmers**

I m pretty sure all the words are right, I had to just listen and repeat what I thought heard. Let me know if any chords or lyrics need changing and enjoy!

**G**            **Em**                            **C**        **D**  
Oh wake me please when this is over  
**G**            **Em**                            **C**  
Oh when the ice has melted away  
                  **D**            **G**  
and the hunger returns  
                                  **Em**  
and it turns out i will be  
                                  **C**  
the same but older  
                  **D**        **G**                            **Em**            **C**  
and maybe twice the man that i thought i was

**G**                            **F#m**  
Where have you been?  
                  **Em**                            **D**            **C**  
And what have you done?  
                                  **D**            **G**  
I ve been under the ground  
**F#m**            **Em**                            **D**            **C**  
Reading prayers from this old book I found  
**D**            **G**  
Under the ground  
**F#m**            **Em**  
Saving it up  
                  **D**                            **C**  
And spending it all  
                  **D**  
On moving pictures

(finger-picking)

And silent films

moving pictures

And silent films

oh is this the dream i ve been saving

oh where the heart beats slower and slower

to almost nothing

almost nothing

almost nothing

i took it for love,

or at least something beautiful

out there in the spotlight i turned around suddenly

turned around squinting

and saw that it was headlights

and in them the truth

the truth was unbearable

oh and dimmer than

bearing down on these two shadow animals

caught painting a dotted line

caught painting a dotted line

caught painting a dotted line

**G** **F#m**

Where have you been?

**Em** **D** **C**

And what have you done?

**D** **G**

I ve been under the ground

**F#m** **Em** **D** **C**

Reading prayers from this old book I found

**D** **G**

Under the ground

**F#m** **Em**

Saving it up

**D** **C**

And spending it all

**D**
