

## Palmistry

### Great Lake Swimmers

Vers. 1

**Bbm**

You see by the lines on my hands

**C#**

I ve been carrying a heavy load

**Ebm**

You follow them across my palms

**G#**

Where they run like roads

Ref.

**Bbm**      **G#**      **C#**      **Bbm**                      **Ebm**      **G#**

Won t you come and read the future, turn it on

**Bbm**              **G#**              **C#**      **Bbm**                      **Ebm**      **G#**

Won t you tell me how I will not feel so lonely?

And read the patterns on my skin

Let the fire somehow get in

See my heart-line is intact

So this is what I lacked

Won t you come and read the future, turn it on

Won t you tell me how I will not feel so lonely?

Under the weight of this balmy night

Tell me something so divine

If there s future in these lines

Bring into the light

Won t you come and read the future, turn it on

Won t you tell me how I will not feel so lonely?
