

**Christie Road**  
**Green Day**

EADGBE

Verse 1:

**G**

Staring out of my window

**E**

Watching the cars go rolling by

**C**

My friends are gone

**G** **D**

I've got nothing to do

**G**

So I sit here patiently

**E**

Watching the clock tick so slowly

**C**

Gotta get away

**A** **D**

Or my brains will explode

Chorus:

**C G D**

Give me something to do to kill some time

**C G D**

Take me to that place that I call home

**C G D**

Take away the strains of being lonely

**C** (hold) **G** (hold) **D**

Take me to the tracks at Christie Road

Verse 2:

See the hills from afar

Standing on my beat up car

The sun went down and the night fills the sky

Now I feel like me once again

As the train comes rolling in

Smoked my boredom gone

Slapped my brains up so high

Chorus

Bridge:

**G G FFFF C C FFFF**

**G B F G B F**

Mother stay out of my way of that place we go

**G B F G B F**

We ll always seem to find our way to Christie Road  
...Repeat that once...

**C F G C F G**

If there s one thing that I need that makes me feel complete
