Lyrics:

No body likes you
 Everyone left you
 They re all out without you
 Having fun

Where have all the bastards gone?
 The underbelly s accidental high
 The dummy failed the crash test
 Collecting unemployment checks
 You re fucking only along for the ride

Where have all the riots gone?
 Acid City s model gets pulverized
 What s in love is now in debt
 On your birth certificate
 So strike the fucking match to light this fuse

The television s an obstructionist
 And you don t even know that you exist.
 Standin still with suit and tie
 You better run for your fucking life

It s not over till you re underground
 It s not hope before it s too late
 This city s burning. It s not my burden
 It s not hope before it s too late

There is nothing left to analyze

Where will all the martyrs go when the virus cures itself?
 And where we will all go when it s too late

Well don t look back

You re not the Jesus of Suburbia

That St. Jimmy is a figment of
Your father's rage and your mother's love
That's made the idiot America

It's not over till you're underground
It's not hope before it's too late
This city's burning. It's not my burden
It's not hope before it's too late

She said I can't take this place
I'm leaving it behind
Well she said I can't take this town
I'm leaving you tonight
