C                    G  
I m rotting inside,  
          F                    C  
My flesh turns to dust,  
F                                    C  
Whisper are you dying in my ear.  
C (com Riff 1)    G  
I m so sick of death,  
F                    C  
Tumors in my head,  
F                                    C  
Whisper are you dying in my ear.

G#                    C  
Red rose of death.  
G#                    C  
In my fist I clutch.  
G#                    C  
Thorns shred my fingertips.  
F                                    G  
And drips of toxic blood.

C                    G  
Kiss me one last time,  
F                    C  
Cloth off my sweat,  
F                                    C  
Whisper are you dying in my ear.  
C (com Riff 1)    G  
As my bones they rust,  
          F                    C  
With every ounce of trust,  
F                                    C  
Whisper are you dying in my ear.
