Looking at the clouds in the sky  
floating image in my mind  
I don t believe I ve found this?  
now I wonder where this place is from

Evidence is everywhere  
start to run now I m scared  
strange beings all around  
come everyone, to this place I ve found

Feeling phsyced

walking? wonder why  
all my joys are open no more crimes

My eyes are clear  
now I m cured  
I only wanna be for sure  
Watch my life spin around in vibes?  
so it rides farther to the ?side?

Look in my head and you will find  
mother love from all mankind?  
no matter where they say I have begun?
