Eb
There s something wrong with

The things I heard today.

There s always talking and you say shut up
You ve got your problems with what s going on
Your tragedy is going stale
You re on a bridge and you cant budge
Well the Saturday night is getting old
All the week you re doing what you re told
You start the fight and you pull the plug
Next morning your face down in the mud

How long can we go on
I hear it going on and on and on

So shut your hole
There s nothing wrong with
The things I heard today...

They talk you say shut up
You ve got your problems with what s going on
You tragedy is going stiff
You re on a bridge and you cant budge
Well the Saturday night is getting old
All the week you re doing what you re told
You start the fight and you pull the plug
Next morning your face down in the mud

How long can we go on
I hear it all going, going wrong
So shut your hole
There s nothing wrong with
The things I heard today...
The things I heard today...
