Goodbye
Greg Laswell

```
    Bm7                      A                  G
It was really nice to meet you, goodbye
      Bm7              A             G
It s high time I quit wondering why
    Bm7                       A
Cause I have lost all that I can
      Bm7        G
From my side
    Bm7                      D
And when you think of me again
        A (pluck technique) G * 2  pluck (Strum 2, 0, 0, 0, xx ) tab then G)
Know I tried, I tried
Bm7
Goodbye
Bm7 G * 2 pluck Gâ€¦.. OOoooooo
```

Forgive me while I lay here
But I have nowhere else to be
I figure when I leave this time
It s for keeps
And when I say good morning next
I ll lie, I ll lie
This is goodbye

```
              Em              G
Then lonely lay the day
              D                      A
I can t remember you at all
And it s not easy to say that day
Has already come and gone
And all that remains is a place
Where you no longer are
```

One day I won t regret this
Oh how I want to believe that s true
Once I pick up my parts I broke on you
I ll get used to the idea
It s not you
Not you
Goodbye
