

I Dont Want To Live Without You
Gregg Tripp Kuffs

Ok so this is my very first try at tabbing something. It sounds close I m not sure all the chords are right. I use bar chords except for the E

intro:
A E B D

verse:

A E B D
Oh, I gotta leave in a little while don t ask me why
A E B D
And I, don t mean to make you cry My love

F# E D E
There s a light shining bright In my eyes tonight
F# E D E
But I still see your face Through the blinding light yeah

Chorus

A E B D
I don t want to live without you Oh, no, I won t walk away
A E B D
I don t want to live without you No one could ever take your place

Everything repeats itself
if anyone know the real chords let me know so I can fix. Most of the chords
sound
right if you listen to the song
Thanks
