[Verse 2](Same chords as verse 1)

I climbed up on a tree
To get a new perspective
If love is worth the time
The price is being rejected
Just as I start falling down
I turned this around

[Chorus]

Run into the light
Get out of your own way
Not afraid to fight
Believe in what you say
I ll hold on till the night
Hanging by a thread
I m not scared to let go
Thoughts inside your head
That creep up to get you
I believe this is right
So I ll hold on til the night

[Bridge]

D

Hold on til I m with you

A

All I ve got to give you

Bm

G

All my fears are slowly fading to never know

Yes I start running running running running!

[Chorus]

Run into the light
Get out of your own way
Not afraid to fight
Believe in what you say
I ll hold on till the night
(Believe that this is the night)
Hanging by a thread
I m not scared to let go
Thoughts inside your head
That creep up to get you
I believe this is right
So I ll hold on til the night
