Verse 1:

**E** **C#m**  
I see my life sometimes and I ask why  
**A**  
My heart became like stone and turned to ice  
**E**  
Tell me what have I become  
**E** **C#m**  
But You came just in time like a shooting star  
**A**  
Across my universe out of the dark  
**E**  
Tell me what have I become

Chorus 1:

**E**  
Take me away  
**C#m**  
You save me from myself and all I do  
**A**  
Cause life just ain t the same when I m with you  
**E**  
I can climb the sky (you got me) walking on  
**B**  
Walk-walking on the stars, walking on  
**E**  
Walking on the stars

Verse 2:

**E**  
I see life through new set of eyes  
Set on someone different that I never realized  
**C#m**  
Outside my mind is a lost world that lies  
But step into my thoughts You ll believe You can fly

**A**

Your words like wings gravity they defy  
My heart like a leaf on the wind catchin' rides

**E**

They say we can't make it at least we gotta try  
We make too much sense to foolishly pass it by

**E**

So I'm taking a rainbow up to the 5th floor  
Steppin' out to see that You're really worth more

**C#m**

And I see our love in 3D  
No more 2 dimensional worries

**A**

Climb until the sky don't exist no more  
That's when I'll knock knock on Your front door

**E**

Open to the possibilities I ignored

**B**

But I know now exactly what Our love was meant for

Chorus 2:

**E**

Take me away

**C#m**

You save me from myself and all I do

**A**

Cause life just ain't the same when I'm with you

**E**

I can climb the sky (you got me) walking on

**B**

Walk-walking on the stars, walking on

**E**

Walking on the stars

**C#m**

(Now) I can see my life from way up high

**A**

And all my troubles I once knew I left behind

**E**

I can climb the sky (you got me) walking on

**B**

Walk-walking on the stars, walking on

**C#m (E at the end)**

Walking on the stars

Bridge:

**A**

And I can see much more clear

**E**

When I'm lost in your atmosphere

**B**

You pull me close to the place

Where you're always waiting

**C#m**

**A**

So I won't stop, the walls are down

**E**

Make my way at the speed of sound

**B/D#**

Hold me now, hold me now

Chorus 2
