[Verse 1]

**B** **E4/A**  
I crept from the soft dimension  
**E**  
Though one of my souls is lighter  
**B**  
It landed painfully  
**F#m**  
Into my big chance suit  
**E** **Em** **B** **B11**  
But I didn t really need it to stay away

[Verse 2]

**B** **E4/A**  
Cause this is not my day  
**E**  
And nobody really cares  
**B**  
Any more anyhow  
**F#m**  
Nobody called again  
**E** **Em** **B**  
Cause they said I m too lazy to stay alive

[Chorus]

**D** **B11**

Every day it s another world  
**E**                    **G**                    **B**  
 And every change of tomorrow  
**D**                                    **B11**  
 Hungover and hungry to fix it  
**E**                    **G**                    **B**  
 A miracle cure for my sorrows  
    **E4/A**  
 With pillows of self-esteem  
    **E**  
 Alone in a satelllite dream  
    **B11**  
 But I can t forget about a world  
                                  **E4/A**                                    **E**  
 Where every beam I choose is shining alone on you  
                                  **B**  
 Shining alone on you, yeah

[Chorus]

**D**                                    **B11**  
 Every day it s another world  
**E**                    **G**                    **B**  
 And every change of tomorrow  
**D**                                    **B11**  
 Hungover and hungry to fix it  
**E**                    **G**                    **B**  
 A miracle cure for my sorrows  
    **E4/A**  
 With pillows of self-esteem  
    **E**  
 Alone in a satelllite dream  
    **B11**  
 But I can t forget about a world  
                                  **E4/A**                                    **E**  
 Where every beam I choose is shining alone on you  
                                  **B**  
 Shining alone on you, yeah

 Shining alone on you
