

Smothered In Hugs
Guided By Voices

F# **G#m**
in the summer that you came
B **F#**
there was something eating everyone
F# **G#m**
and the sunshine fund was low
B
we couldn't greet you
F#
with a simple hello

F# **G#m**
and the watchers of the flood
B **F#**
were busy in their chambers
F# **G#m**
making sure there was new blood
B **F#**
to sustain their dying veins

F#
but i believed you
C#
no need for further questioning
Bm
i m gonna leave with you
F#
you can teach me all you know
F#
which way will we go now
C#
on our trip to taller windows
Bm
i really don't know now
F#
i really don't know

F# **G#m**
in the winter that you left
B
there was business as usual
F#
with the same old fears and frustrations
F#
but the word got out
it was really such a pity
G#m

but the judges and the saints
and the textbook committee

B

decided you should be left out
not even mentioned
