

Falling Out Of Reach
Guillemots

This is a fantastic new song on their new album. I saw the other chords tab on this site
it is so wrong. Here s the right one. i havn t quite got the whole song, but I think
rest should be very similar to the bridges and chorus I ve tabbed.

Tuning standard

The song is recorded with a capo on the 3rd and can be played like that. Capo on the
sounds good too. Depends on your voice!
