Alone In The Night
Gundelach
[Verse 1]
Cold wind dances
Distorted memories approaching and I m numb again
Am
 Chasing flashes
Em
But I am fooling myself, cause I m alone in the night
[Chorus]
F
                                       Dm
 It s all speculations, no way to control it
Fabrications, alone in the night
[Verse 2]
Bridges falling
 The silence in the room is quietly absorbing me
Am
 Strangers calling
 I think I m losing myself, cause I m alone in the night
[Chorus]
                                      Dm
It s all speculations, no way to control it
Fabrications, alone in the night
[Bridge]
Am
Caught in the place with visions of you
And the things I thought I knew
Maybe it s late, we re already through
 I m alone in the night
[Chorus]
It s all speculations, no way to control it
```
