

**Barrel Of A Gun**  
**Guster**

Ok, first time effort here, but I thought the song was really catchy and decided to try and get it down for anyone interested. As usual, this is just my interpretation -- this is what my ears heard, but they could always be wrong. Also, I don't know the names for all the chords, so while the chords listed below are correct, the names might not be. Those marked with a ? use my own naming convention.

Chords used:

**A#m:** 688666  
?A# Off: 666666  
**A#:** 688766  
**F#:** 244322  
**C#:** 446664  
?C# Off: 446644  
**G#m:** 466444  
**G#:** 466544  
**D#:** 668886  
?D# Off: 668866  
**B:** 224442  
B Off: 224422  
**F:** 133211

I believe the electric guitar in the song is playing some of the chords higher, (especially the F# and C#), so transpose to your liking. As you can see above, most of the song is played near the middle of the guitar, so try to avoid playing low transpositions like A#m = [x13321]. Here are some other suggestions that sound right, but could get painful if you're trying with an acoustic:

**F#:** 9-9-11-11-11-9  
**C#:** 9-11-11-10-9-9

Intro:

-----

**A#m - ?A# Off**  
(x 4)

Main Verse:

-----

**A#m - F# - (C#) - A#m**  
**A#m - ?D# Off - (A# Off) - A#m**  
(x 2)

Little diddy riff before chorus:

4-----4-----  
6---6---4---6---6---  
-----6---5---6-----  
-----  
-----  
-----  
-----

Chorus:

F# - C# - (?C# Off) - G#m - B - (B Off) x 2

Bridge:

**A# - G# - D# - F**

(x 2)
