

Barrel Of A Gun
Guster

From: Matthew Brock

Subject: g/guster/barrel_of_a_gun.crd

Ok, first time effort here, but I thought the song was really catchy and decided to try and get it down for anyone interested. As usual, this is just my interpretation -- this is what my ears heard, but they could always be wrong. Also, I don't know the names for all the chords, so while the chords listed below are correct, the names might not be. Those marked with a ? use my own naming convention.

---Matthew Brock---

Chords used:

Cm: 688666
?A# Off: 666666
C: 688766
G#: 244322
Eb: 446664
?C# Off: 446644
Bbm: 466444
Bb: 466544
F: 668886
?D# Off: 668866
C#: 224442
B Off: 224422
G: 133211

I believe the electric guitar in the song is playing some of the chords higher, (especially the F# and C#), so transpose to your liking. As you can see above, most of the song is played near the middle of the guitar, so try to avoid playing low transpositions like A#m = [x13321]. Here are some other suggestions that sound right, but could get painful if you're trying with an acoustic:

G#: 9-9-11-11-11-9
Eb: 9-11-11-10-9-9

Intro:

Cm - ?C Off
(x 4)

Main Verse:

Cm - **G#** - (**Eb**) - **Cm**
A#m - ?D# Off - (A# Off) - A#m
(x 2)

Little diddy riff before chorus:

4-----4-----
6---6---4---6---6---
-----6---5---6-----

Chorus:

F# - C# - (?C# Off) - G#m - B - (B Off) x 2

Bridge:

C - Bb - F - G

(x 2)
